# INVEST IN YOUR BUSINESS. ELEVATE YOUR PROPERTY WITH ECOSMART FIRE.

EcoSmart Fire's Commercial & Hospitality Program will assist in adding the ambiance and warmth of a fire feature easily and in a way that makes the most sense for your business. Our program will help differentiate you from the competition, elevate the experience of your guests and show you how to earn a beneficial return on your investment. EcoSmart Fire and Brown Jordan Fires are helping properties around the world dial into the fire trend with simplicity, profit and style.

Quality is in the details, which is why we've tailored our Commercial & Hospitality Program to address the details that are important to you: preferred pricing, rapid lead times, and economical operating costs. These benefits and more are how we make it easy to save money and increase profits.

## Preferential Pricing

Whether you're seeking a firepit for a master spec or simply need a single property solution, you'll enjoy exclusive pricing customized to your business.

- Property-direct pricing options with no minimum order size.
- National brand programs with even greater savings when partnering with us as an approved vendor.
- Access to our e-NRG Commercial Fuel Program for additional savings on operating costs, discounts on auto-ship options and more.
- Discounted nationwide freight.

## An Amenity to Drive Revenue

The Commercial & Hospitality Program is designed to offer an immediate return on your investment and to add value to your property.

- Fire features increase food and beverage sales by attracting guests and inviting them to stay longer.
- Our fire features are a highly marketable amenity that help to attract new customers.
- No matter your target clientele, fire features elevate your guest's experience, adding one more reason for them to come back time and time again.

## Easy from Day One

Our unparalleled support and versatile product range makes adding fire simpler and more convenient than ever before.

- Our freestanding fire features are an FF&E item, not a GC item, so you'll spend zero time sourcing, bidding, or constructing a fire feature.
- Complete your projects in a fraction of the time. Our quick ship program allows you to have a fire up and running in just days!
- Your single point of contact is dedicated to understanding the ins and outs of your business needs.

# ELEVATE YOUR PROPERTY

Our collections pair a modern design aesthetic, immaculate fit and finish and commercial grade materials with unmatched versatility. We understand that making the most of your property means maximizing your resources in every way, so our products provide you with the flexibility and functionality you need in a commercial environment.

## No Utilities

Our fire features are entirely self-contained and require no gas or electrical utility connections making our freestanding models easy to relocate as needed. A cozy fireside seating area at night becomes an open dance floor at your next wedding reception. It's as simple as moving a piece of furniture!

## Vent-Free & Clean-Burning

EcoSmart Fire and Brown Jordan Fires are ventless and emit no smoke or harmful emissions, so you can use your fire features practically anywhere! From covered balconies, cabanas, and lobbies, to restaurants, bars, pools or patios, the options are limitless. Whether you're enhancing an outdoor or indoor space, you'll find what you need in our collection.

## Simple Installation & Maintenance

Installation of our outdoor fire features are simple as unpacking and setting the unit in place. The EcoSmart Fire burner technology is designed with no moving parts which ensures continuous operation for your clientele. We offer a level of simplicity and convenience that will be appreciated for years to come.

## Safe & Easy to Operate

Our proprietary e-NRG packaging and accessories ensure simple and safe operating processes, making it easy and safe for anyone on staff to operate. Unlike gas, e-NRG is not pressurized, so it's safe to store and simple to handle.

## Sustainable Design

Fueled by clean burning e-NRG Bioethanol, our fires provide a vibrant orange flame and a unique point of difference to your property. Offering an eco-friendly fire for your guests to enjoy sets your business apart and offers a unique point of difference.

*"We love the sense of comfort a fireplace gives. To have a fireplace in (our) hotel helps provide a 'home away from home' feeling."*
